

## **THE SKELLINGTONS OF WELLINGTON**

Dead of the night  
Top of the hill  
The Skellingtons ride  
If one doesn't catch you  
Another one will

Race through the trees  
Wind in their hair  
The Skellingtons ride  
But if you look close  
There is nobody there

**We are the Skellingtons**  
**The Skellingtons of Wellington**  
**Hold your horses**

Bone upon bone  
Hear the whip crack  
The Skellingtons ride  
And one of them's headless  
And don't wear a hat

There's Sledgehammer Sue  
There's Rawiri Black  
The Skellingtons ride  
They ride and they died  
And now they're coming back

**We are the Skellingtons**  
**The Skellingtons of Wellington**  
**Hold your horses**

Dead of the night  
Top of the hill  
The Skellingtons ride  
If one doesn't catch you  
Another one will

Faster than light  
Into the sea  
The Skellingtons ride  
They'll be back tomorrow night  
Just wait and see

**We are the Skellingtons**  
**The Skellingtons of Wellington**  
**Hold your horses**

## **VIRUS**

Virus Virus Virus

I picked it up one day at the swimming pool  
I'm talking virus  
Now that I have caught it  
I can give it to you  
Infectious virus

If you've got a chicken pox, a measles or mump  
You've got a virus  
Spreads all through your body  
Till you're covered in lumps  
Infectious virus

**I'm going viral**  
**I'm going viral**  
**I'm going viral**  
**I'm going viral**

A virus is a parasite  
And we are the host  
They live inside us  
So tiny you can see them  
With a microscope  
Infectious virus

**I'm going viral**  
**I'm going viral**  
**I'm going viral**  
**I'm going viral**

## **I LOVE BLOOD**

**I love blood**

**I love blood**

**I love blood**

Care for a snack?

Something to really get your teeth into.

Mmmmmmm

I love B.L.O.O.D

**I love blood....so nutritious**

**I love blood....no need for dishes**

**I love blood....it's delicious**

Caught on the hop?

There's no need to stop what you're doing

Just sink your fangs into flavour and tang

I'm talking B.L.O.O.D

**I love blood...it's red and it's oozy**

**I love blood...try it in your Jacuzzi**

**I love blood...it's a doozy**

Buckets of blood

Or by the spoonful

Gimme a flood

It's what I'm used to

I can't help the way I feel

How about you?

Don't mind if I do

**I love blood**

**I love blood**

**I love blood**

## **DINGO BINGO**

**Dingo Bingo**

**Dingo Bingo**

*Run, run, run, run, run, run, run, run, run, run*

Four legs run faster than two legs

Ears hear the smallest of sounds

Sniffing the air

See what you can find there

Tail always follows behind

*Fun, fun, fun, fun, fun, fun, fun, fun, fun, fun*

**Dingo Bingo**

**Shake it Dingo baby**

**Dingo Bingo**

**Shake it, shake it, shake it**

Barking loud simply for pleasure

Bite me with your little fangs

Sweet little face

Licks me in every place

Falling asleep where you land

**Dingo Bingo**

**Shake it Dingo baby**

**Dingo Bingo**

**Shake it, shake it, shake it**

## **NICE & NASTY**

Two little horses  
Nice & Nasty  
Live in a paddock on the hill  
You'd think they were brothers  
But they both have different mothers  
And Nasty says, "I will be the boss"

Two little horses  
Just Nasty & Nice  
You'd think that they'd try to be friends  
But Nasty bites and Nasty kicks  
And he always wins at the end of the day

**Poor little Nice**  
**Just wants to be loved**  
**But poor little Nasty can't**

Too much sunshine  
And not enough rain  
Soon all the grass is eaten up  
You'd think they'd share  
Since there's so little there  
But Nasty says, "It's mine, keep away"

Too much sunshine  
And not enough shade  
There's hardly any water in the trough  
You'd think they'd sip and just take a little bit  
But Nasty drinks it all with a gulp

**Poor little Nice**  
**Just wants to be loved**  
**But poor little Nasty can't**

Two months later  
And Nice has enough  
Of that barren little paddock on the hill  
Cos right next door is a field full of grass  
Where the rabbits play at the end of the day

Goodbye Nasty  
Nice runs for his life  
He's scared but he jumps over the fence  
But Nasty stays, cos while he is a bully  
He actually lacks confidence

**Poor little Nasty**  
**Wants to be loved**  
**But now little Nice has gone**

**All little horses**  
**Want to be loved**  
**But Poor little Nasty can't**

This is a song  
About a vegetable  
It lay in the fridge for a week  
Growing smelly

**Every little vegetable**  
**Grows grows grows grows grows**

Carrots, corn and broccoli  
Cauliflower and celery  
But wait...  
What's that thing at the bottom of the fridge?  
Cumber Cucumber Cucumber (mouldy)  
Cumber Cucumber Cucumber (mushy)

**Every little vegetable**  
**Grows grows grows grows grows**

Pumpkin, puha, baby peas  
Kumara and silverbeet

## **PROBABLY PAPA KURA**

I'm gonna be late  
I run for the bus  
There isn't much time  
For making a fuss  
I'm meeting my friend at quarter to 8  
It's a holiday day  
It's a holiday day

Can't you see the sun is shining above?

I'm wearing my cap and my basketball boots  
The Great South Rd takes us wherever we choose

**Probably Papakura**  
**Maybe maybe Manurewa**  
**Possibly Papatoetoe**  
**O Otara**

We ride with the wind  
We go with the flow  
Past the parks and the shops  
And the people we know  
The driver's our friend  
And we're on our way

It's a holiday day  
It's a holiday day

Can't you see the people smiling at us?

We like to go fast, we like to go slow  
The Great South Road takes us wherever we go

**Probably Papakura**  
**Maybe maybe Manurewa**  
**Possibly Papatoetoe**  
**O Otara**
