

DO THE WOOPSIE

Here's your chance
A brand new dance
Mind your step
Pep-i-di-pep

Do The Woopsie

To the right
Nice and light
To the left
Good as you get

Do The Woopsie

Climb the stairs
Hands in the air
Twisting low
As low as you go

Do The Woopsie

Make your mark
Glow in the dark
Going on a holiday
I'm going to dance my cares away
Woop woop woop woop

Do the Woopsie

Shake your head
Shake your tail
Float your boat
Raise your sail

Do The Woopsie

LITTLE MISS MOSQUITO

Mosquito
In the middle of the night
In the middle of my dreams
Buzzes through the window by my bed

Mosquito
Like an arrow taking flight
Like a needle sharp and bright
Cuts straight through the darkness to my head

**Little Miss Mosquito
Wants to spend the night with me
Little Miss Mosquito**

**Little Miss Mosquito
Wants to stick her knife in me
Little Miss Mosquito**

Mosquito
I wake up ready to fight
She is ready but to bite
I am big and she is very small

Mosquito
Is she here or is she there?
I can hear her everywhere
Dancing like a shadow on my wall

Little Miss Mosquito...

Mosquito
She takes aim and then she strikes
I reach up turn on the light
She is on the ceiling out of reach

Mosquito
She is quiet then she dives
I am left with itchy hives
She has sucked my blood just like a leech

Little Miss Mosquito...

THE JUNGLE IS JUMPING

Leaves on the trees
I said leaves on the trees
They move with the wind
They move with the rain
Leaves on the trees
They're at it again
Leaves leaves leaves leaves leaves leaves
Leaves on the trees

The jungle is jumping
The jungle is wild
Full of dirty creatures
Smile and then they eat you
The jungle is jumping
Come closer my child

She sneaks through the trees
I said she sneaks through the trees
She's long and she's snaky
She slides on the ground
She sneaks through the green
She's never been found
Sneaks sneaks sneaks sneaks sneaks sneaks
Sneaks through the green

The jungle is jumping
The jungle is wild
Full of dirty creatures
Smile and then they eat you
The jungle is jumping
Come closer my child

They eat with their teeth
I said they eat with their teeth
They don't like bananas
Don't give them a treat
They eat with their teeth
And they're screaming for meat
Meat meat meat meat meat meat
Meat with their teeth

The jungle is jumping
The jungle is wild
Full of dirty creatures
Smile and then they eat you
The jungle is jumping
Come closer my child

LADY LUCK

Lady Luck

You got your eye on me

One little birdie sitting on the tree
Tree say not a lot
Bird say I've got
I've got love in my heart

Sha na na na na
Sha na na na day-o

Lady Luck

You got your eye on me

One little sea horse
Swimming in the sea
Sea say giddy up
Horse say what's up
I've got love in my heart

Sha na na na na
Sha na na na day-o

Give a little love
You get a little luck
You've got, you've got the feeling
You give a little love
You get a little luck
It's my heart I'm revealing

Lady luck

You got your eye on me

DON'T BELIEVE WHAT I SAY

**Don't believe what I say
Don't believe what I say
Don't believe a word I am telling you
Don't believe what I say**

My name is Marvin, I live in a tree
My little brother is older than me
My mother's a giant, my father's a dwarf
My brother's a hermit, lives under a wharf

**Don't, don't
Don't believe what I say
Don't believe what I say
Don't believe a word I am telling you
Don't believe what I say**

My uncle eats cabbage, he lives on the moon
He breathes through his ears and he eats with a spoon
His wife is Gemima, she climbs to the stars
Has breakfast on Venus and dinner on Mars

**Don't, don't
Don't believe what I say
Don't believe what I say
Don't believe a word I am telling you
Don't believe what I say**

None of it's true
Except I love you

My aunty's got two legs, my sister's got four
My granny's so fat she can't fit through the door
She looks like a dragon all covered in scales
Her husband's a dolphin and swims with the whales

**Don't, don't
Don't believe what I say
Don't believe what I say
Don't believe a word I am telling you
Don't believe what I say**

NO TOAST

No toast
No toast for me
I'm heading out to sea
No toast
No toast for me
A sailor is what I be

Out across the waves
The wind she blows
Mind the rocks below

No toast
No toast for me
I'm sailing across the sea
No toast
Or mouldy bread
A hammock for my head

Seas as big as trees
The ship she flies
Sailors tell no lies

A 1-2-3
A 2-2-3
Boom and a boom and a boom
And a boom
Crash Crash
Boom and a boom
And a go to your room

No toast
No toast for me
I'm heading out to sea
No toast
No toast for me
A sailor is what I be

REAL GOOD TIME

My horse run faster than your horse
Your horse is blacker than mine
Put 'em together in all kinds of weather
And we'll have a real good time

My pie is sweeter than your pie
Your pie is bigger than mine
Put 'em together in all kinds of weather
And we'll have a real good time

Real good time
Real good time when the sun begins to shine
Real good time
Real good time till the stars up in the sky

My voice is higher than your voice
Your voice is lower than mine
Put 'em together in all kinds of weather
And we'll have a real good time

My sister's nicer than your sis
Your brother's kinder than mine
Put 'em together in all kinds of weather
And we'll have a real good time

Real good time
Real good time when the sun begins to shine
Real good time
Real good time till the stars up in the sky

My bike goes faster than your bike
Your bike is newer than mine
Put 'em together in all kinds of weather
And we'll have a real good time

My legs are fatter than your legs
Your legs are longer than mine
Put 'em together in all kinds of weather
And we'll have a real good time

Real good time
Real good time when the sun begins to shine
Real good time
Real good time till the stars up in the sky

PARADISE

Got a short fuse
A red hot temper
I get mad May to November
Better slow down
Open my eyes
Cos I live in paradise

I get angry
I get mean
I get nasty ghastly I cause a scene

I get ugly
I blow steam
I jump up and down till my face turns green

Got a short fuse
A red hot temper...

I get nowhere
Then I scream
I yell quite a lot but don't say what I mean

I'm a nightmare
Not a dream
I'm an exploding corroding machine

Got a short fuse
A red hot temper...

I get shirty
And I frown
I can't tell the difference between up and down

I play dirty
I'm a clown
I hiss and I spit and I fall to the ground

Got a short fuse
A red hot temper...

I wear trouble
Like a crown
So far underwater I'm starting to drown

Like a bad smell
I'm around
I huff and I puff till I'm run out of town

IN YOUR PYJAMAS

In your pyjamas
You stare at the sky
Mercury, Venus and Mars
Saturn, Jupiter, Neptune, Uranus and others

There's a lot of blackness
Between all the stars
Light years away
The sun burns a hole in the sky

In the sky
In the sky

Can you see me?
I can see you
Mercury, Venus and Mars
Saturn, Jupiter, Neptune, Uranus and others

Please send me a message
Like a falling star
Light years away
The sun burns a hole in the sky

In the sky
In the sky

NEED THE BEES

Bees got six knees
And they fly with a humming sound
Buzz from the hive
Every day when the sun shines down

Bees got to go
Cos they know where the pollen lies
Zooming from flower to flower
As the hours go by

**We need the bees
Need the bees**

Bees like a sweet nectar treat
Suck it up inside
Race back to home
Honeycomb, that's the food supply

Bees need a queen
Egg machine, she's a busy girl
Bees come and go
Don't you know, it's a buzzy world

**We need the bees
Need the bees**
